Introduction to LOGAS PHP Group .01

LOGAS PHP GROUP is a company offering high risk protection services and counseling to selected customers with special safety and security needs that require a high level of expertise and knowledge in their handling due to their complex and challenging endeavors. We take pride in our capacities for risk assessment and evaluation as well as problem-solving techniques through the best use and combination of high caliber resources available.

We provide global solution for corporations who require occasional support or longer-term solutions in several areas. We provide the highest standards of specialization and training for armed and unarmed teams that are carefully selected and specifically trained to meet the unique requirements of each customer, matching the capabilities of our operatives with your needs.

Our Management tea comprises of skilled analysts & security experts that have the pertinent expertise to meet rapidly changing threats that appear abroad daily.

Services consists of former High Rank Police Officers from Hellenic Police, former Special Forces and private military advisors.

Our Team .02

- Our senior management brings together individuals with a broad range of military and security experiences for the necessary dynamic to provide potential security solutions understanding the complexity of the environment our clients are operating at (urban or countryside).
- Our team offers a wide range of services supporting our clients' needs, which are performed by experienced international staff of varying backgrounds (army special forces, air force and navy, police, medical and paramedical personnel, security systems experts, etc.) advanced logistical infrastructure and background technology in the fields of security, protection, and monitoring.
